

Cooper's kidz page

Hi!

I'm Cooper the Clock

and my job at Family Times magazine is to spread the word about the importance of families spending time together!

My best friends are Suzi the Stop Watch and Digi the Digital Clock. We love to play soccer together, watch baseball games, enjoy arts & crafts, and just get out and have a few great adventures!

I'd love for you to follow along with me throughout each magazine as I share my scavenger hunts, special stories, favorite things to do with my family and let you know where I'll be around the Twin Cities, so you can come and play with me in person!

I'd love to hear about what your family is going to do this summer – are you taking a trip? Visiting special relatives? Have your mom and dad friend me on Facebook so we can share stories of our favorite things to do during these warm summer days!

Remember to look for me around the Cities and come up and say Hi!

What time is it? It's Family Time!!

brain buster!

What gets wetter the more it dries?

(Answer: a towel)

fishy fun!

make it! Rocket Pops

You will need:

- red juice (cherry, raspberry, strawberry)
- clear/white juice (lemonade)
- blue juice (blue kool-aid, raspberry)
- 3 oz. paper cups
- popstick sticks
- cookie sheet

Spread paper cups out on the cookie sheet and fill each one about 1/3 full with your red juice.

Carefully put them on a level surface in the freezer until they are half way frozen and are slushy firm, but not hard. It will take about 2-3 hours.

Push a popsicle stick in the center of each cup and then fill the next 1/3 of the cup with your white juice and freeze again for the same amount of time. Then repeat with the blue juice and put back in the freezer until frozen solid.

Then peel off the paper cup and enjoy your homemade Rocket Pop!
